

# The Advanced EUM Workshop (Online) December 2023

**Reflexive Lenses Consulting Private Limited is pleased to offer the Advanced EUM workshop in December 2023 and invites participation from certified EUM practitioners.**

The EUM framework straddles the vast canvas of human experience. The EUM practitioner is aware that the unique configuration of imperatives of existence in any living system shapes its self-perception, aspiration, and relationship with the context. Exploring this configuration is akin to unravelling an exciting puzzle and can offer insights that are enriching, personally and professionally.

**The Advanced EUM workshop\* has the following scope:**

1. A deep dive into the axioms and philosophical underpinnings of EUM.
2. The multiplicity inherent in each Universe and its impact, and the quality of engagement (and not just the extent) with the Universe.
3. The concept of shadows and their exploration.
4. Inter-Universe patterns, including fusion and splitting of Universes.
5. Significant response patterns in EUM-I adjectives and what they add to sense making.
6. Sense making from Scores patterns without the aid of reports.

*\* The Advanced EUM workshop will focus on the EUM-I.*
